

PRAGYA POUDEL

SOFTWARE ENGINEER • .NET CORE • FULL-STACK DEVELOPMENT

Tilganga • Kathmandu, 44600 • pragyapoudel77@gmail.com • 9805582272

PROFILE

Software Engineer with experience in ASP.NET Core, Blazor, C#, SQL Server, Dapper, REST APIs, responsive UI development and enterprise applications. Experienced across UI, API and database layers, with strong interest in software architecture, AI-assisted applications, healthcare systems and machine learning.

CORE

C# • ASP.NET Core • Blazor
SQL Server • Dapper • REST APIs
Git / GitHub • Swagger
Redis • SignalR • Chart.js
Python • AI / ML
HTML5/CSS3 • JavaScript

PROFESSIONAL EXPERIENCE

SME Careers - Remote (US Based) - HTML/CSS Lead / AI Training

July 13, 2026 - Present

- Guided AI on semantic HTML elements, accessibility and frontend quality practices.

Uranus Tech Nepal - Naxal - Full Stack Developer

July 2025 - April 2026

- Developed enterprise web applications using ASP.NET Core, Blazor, HTML, CSS, JavaScript and SQL Server.
- Designed RESTful APIs and responsive Blazor interfaces using QuickGrid and Bootstrap.
- Implemented Dapper and the Generic Repository pattern for maintainable data access.

Annapurna Neuro General Hospital - Thapathali - Web Designer / IT Support

2019 - 2023

- Designed and maintained responsive website pages using HTML, CSS, JavaScript and Bootstrap.
- Improved usability, accessibility, performance, browser compatibility and mobile responsiveness.
- Worked with departments to gather requirements and implement website enhancements.

Webtech Company Pvt. Ltd. - Web Designer

2018 - 2019

- Designed and maintained websites using HTML, CSS and related frontend technologies.

EDUCATION

MSc in Software Engineering
Nankai University, Tianjin, China
Sep 2023 - Jun 2025 • 92%

Bachelor of Computer Information System
Apex College, Pokhara University, Nepal
2017

FEATURED PERSONAL PROJECT

Employee Management System
HTML • CSS • JavaScript • C# • ASP.NET Core / Blazor •
Dapper • SQL Server.

Announcement Management is one of the system
pages/modules.

PROJECTS & RESEARCH

PERSONAL PROJECTS • TECHNICAL WORK • THESIS

01. Personal Resume Website

Built with HTML, CSS and JavaScript, including animation features.

02. Custom Travel Website

Built with HTML, CSS and JavaScript using Flexbox, media techniques and responsive layouts.

03. ASP.NET Core Authentication & Authorization

Implemented authentication and authorization using ASP.NET Core and Dapper.

04. Entity Framework Core CRUD

Implemented CRUD operations using Entity Framework Core.

05. SQL Server Project

Built a personal project with 40+ tables and stored procedures to strengthen SQL Server skills.

06. Employee Management System

Personal full-stack project using HTML, CSS, JavaScript, C#, ASP.NET Core / Blazor, Dapper and SQL Server. Announcement Management is one of the system pages/modules.

07. Microservice Architecture

Built a three-project solution: API project, Blazor presentation layer, and common/data layer with Dapper repository code.

08. ASP.NET MVC Project

Built an MVC architecture-based .NET project.

09. Patient Management System

Developed using Java and Spring Boot.

10. Breast Cancer Prediction System

Built a breast cancer prediction system using a Deep Neural Network (DNN).

ADDITIONAL PROJECT WORK

11. 25+ Website Portfolio: Built/contributed to 25+ websites with HTML, CSS, JavaScript and Bootstrap. 12. Bottlers Nepal / Coca-Cola: CRUD, debugging, customer interaction, problem solving and internal project work.

MASTER THESIS & RESEARCH

Master Thesis Researcher - Nankai University · 2024-2025

- Conducted independent research on an AI-assisted Cancer Management System using Java and modern software engineering methodologies.
- Designed system architecture, database schema and application modules for healthcare management.
- Performed literature review, system analysis, implementation, testing and thesis documentation.

TECHNICAL PROFILE

SKILLS • TRAINING • LANGUAGES • LINKS

TECHNICAL SKILLS

C#

ASP.NET Core

Blazor

HTML5/CSS3

JavaScript

SQL Server

Dapper

REST APIs

Java/Python

Git/GitHub

Bootstrap

Swagger

Redis

SignalR

Hangfire

Chart.js

PROFESSIONAL TRAINING

Web Design - HTML5, CSS3, Bootstrap, JavaScript and responsive web development - 2018

Artificial Intelligence with Python - Python programming and AI concepts - 26 May 2024 - 1 Oct 2024

Java Programming - Object-oriented programming and application development - 26 May 2024 - 26 Aug 2024

ASP.NET Core - C#, MVC, Web API, SQL Server and full-stack web development - Dec 2025 - Feb 2026

React.js - Currently learning component-based frontend applications - Current

RESEARCH EXPERIENCE

AI-assisted software development • Cancer Management System • Software Engineering Research • System Design • Database Design • Requirement Analysis

LANGUAGES & INTERESTS

English • Nepali • Basic Mandarin

Full-Stack Web Development • AI & Machine Learning • Software Architecture • UI/UX • Emerging Technologies • Technical Problem Solving • Singing
